Born out of boyhood friendship, Harley-Davidson® has changed the face of transportation and American culture. It goes to show you that with a dream, a team, and hard work, incredible things are possible.

## 120th Anniversary United we ride

In 2023 we mark our 120th anniversary with a stunning haul of seven special models, showcasing the ultimate in Harley-Davidson® engineering and design.

The tradition of commemorating milestone Harley-Davidson® anniversaries began with a bronze medallion on each bike to mark the 50th anniversary. Since then, limited edition anniversary models have been released every five years. Anticipation has grown with each reveal, making these machines the ultimate prize for collectors.

### Here's what you can look forward to in the 120th special editions:

- *Tri Glide® Ultra Anniversary (1,100)*
- *Ultra Limited Anniversary (production limited to 1,300 globally)*
- *Street Glide® Special Anniversary (Black Trim) (1,600)*
- *Road Glide® Special Anniversary (Black Trim) (1,600)*
- *Heritage Classic 114 Anniversary (Chrome Trim) (1,700)*
- *Fat Boy® 114 Anniversary (3,000)*

The base colour on all models is Heirloom Red, inspired by early Harley-Davidson® models. Panels are outlined with a bright red pinstripe and filled with a darker Midnight Crimson fade.

The panel design is featured on the fuel tank and front and rear fenders, and on side covers, fairing, hard saddlebags and Tour-Pak® luggage carrier where applicable. The “Speedbird” tank medallion features an Art Deco rendition of a flying eagle – an iconic element of Harley-Davidson symbolism.

CLICK TO LEARN MORE

## Ultra Limited Anniversary

Stand out from the crowd with premium features and exclusive finishes. From the Batwing fairing, to the sumptuous rider and pillion seats, Milwaukee-Eight® 114 engine and the Boom!™ GTS infotainment system. Every aspect of the Ultra Limited Anniversary is designed to ensure you arrive safely, in comfort, and with unmistakable Harley® style.

## Street Glide® Special Anniversary

Illuminate your ride with the very special Heirloom Red finish. Celebrate 120 years of Harley-Davidson® pride and craftsmanship with the finishing touches only Harley-Davidson can deliver. Art deco eagle tank medallions. Seat covers with red side panels and gold embroidered Harley-Davidson logo. Red Fade engine inserts. And, of course, a unique serialisation number.

## Road Glide® Special Anniversary

Exclusive art deco styling. Same brilliant performance. Add them together for one of the most visually appealing, supremely adept, mile-munching motorcycles to cover all roads at a pace that suits you.

## Fat Boy® 114 Anniversary

All attitude. All anniversary. All-American legend. If biggest is best, then the Fat Boy® 114 draped in Heirloom Red is sure to stand tallest. Fat tyres, big forks, strong Milwaukee-Eight® heart. Although it may sound a beast, its expertly developed chassis and components mean this classic cruiser is easily tamed.

## Heritage Classic 114 Anniversary

Ride a classic. Look the part. Feel the freedom on this quintessential dresser. Don't be fooled by its legendary silhouette. The Heritage Classic Anniversary is timeless, but the Softail® chassis and running gear is as modern as it gets. Stylish touring, whether single or two-up.

## Tri Glide® Ultra Anniversary

Inspired by the past. Built for the future. Harley-Davidson® Trike ownership delivers the joy of motorcycling with additional confidence. The Tri Glide® Ultra Anniversary offers the benefits of a trike with next level styling in its 120th Anniversary colour scheme, guaranteeing admiring looks wherever you ride.

# Grand American Touring

*Made to explore*

**Built for long distance. Made for making memories.**

You'll never truly experience the freedom of motorcycling until you own a Harley-Davidson® Grand American Tourer.

We created the genre from the wheels up, and with over 100 years of excellence behind every model you'll feel the heritage in every mile.

Choose your bike. Choose your journey. Choose a Grand American Tourer.

**CLICK TO LEARN MORE** 

## Road King® Special

Styled to please. Designed to perform. The Road King® Special is the archetypal custom bagger. The Milwaukee-Eight® 114 engine oozes torque for straight line cruising or carving up bends. While a taut, modern chassis, and adjustable rear suspension help to make the most of the powerful delivery, even with fully loaded rear side-boxes and passenger.

## Street Glide® ST

Go further, faster with the new 117 engine. This pure performance bagger features the largest production engine to be installed by the factory to meet the needs of riders wishing to experience a new breed of Harley® performance. Guaranteed to set hearts racing.

## Street Glide® Special

Iconic custom looks. Mile-munching performance. Boom!™ Box infotainment. Just three of the many reasons why Street Glide® Special is truly a rider's bike. Effortlessly run with the pack on any road, any continent.

## Road Glide® ST

More power, more comfort, more style. The Road Glide® ST delivers it all to make every ride a memorable one. For the riders who demand more, Screamin' Eagle® Stage Kits take performance one step further, while Harley-Davidson® Genuine Parts & Accessories will truly personalise your ride.

## Road Glide® Special

Classic touring design. Premium H-D® features. Disconnect from the world and go that extra mile thanks to the upright riding position and wind-cheating fairing. Or stay connected with infotainment, including the standard Boom!™ Box GTS unit, sat nav and Bluetooth connectivity for music and calls on the go. Remote working just levelled up.

## Road Glide® Limited

Tour in comfort. Tour in style. Easily master distances whatever direction you take, safe in the knowledge that Harley-Davidson® Rider Safety Enhancements such as Tyre Pressure Monitoring System and Cornering Enhanced Traction Control System (C-TCS) are working silently and tirelessly for your maximum Touring pleasure.

## Ultra Limited

Ultimate comfort. Maximum touring potential. Exceptional luggage space. These go hand in hand with the performance of the mighty Milwaukee-Eight® 117 engine. View the world at a relaxed pace or make the most of the 1,923 cc engine displacement, with the support of Harley-Davidson® Rider Safety Enhancements.

Alone. Together. Self-guided. Fully supported. Iconic routes. New terrain. Wherever in the world you want to ride, there is an Authorized Tour partner to suit.

Tour the Alps. Cruise Route 66. Explore South Africa. Master the Stelvio Pass. Experience Asia. Complete Scotland's NC500. Wherever the destination, the journey will be memorable.

**CLICK TO FIND  
YOUR TOUR** 

# Cruiser

## *Life. Style. Choice.*

For the rider who appreciates style, sound and performance above all else. You'll turn heads and make a statement on an iconic Harley-Davidson® cruiser.

Taking one home is just the start. Chop, change and customise to your heart's content. Just ask your dealer for the best advice and accessories to really make your bike, your bike...

**CLICK TO LEARN MORE** 

## Softail® Standard

The only thing standard is the name. Beautiful clean lines and an iconic silhouette make for a class act. Turn heads on every ride and stir souls with every audible beat of a Milwaukee-Eight® 107 engine.

## Street Bob® 114

Cut through the city in style with stripped back bobber looks that have raised the heart rates of generations of owners and onlookers. It gets better, because Street Bob® is an ideal platform for self-expression in the guise of personal customisation.

## Sport Glide® 107

The bike that does it all. Killer looks and slim saddlebags go hand in hand with the mini-fairing to create a genuine, universal motorcycle. And quick release removal of the stylish luggage instantly results in a bare, authentic cruiser.

## Low Rider® S 117

Aggressive, agile and all-out action comes with Low Rider® S ownership. The ride position places you in a commanding position to help slice through turns, while modern suspension, brakes and chassis look after the rest. The Milwaukee-Eight® 117 engine rubber stamps the performance credentials of Low Rider® S.

## Fat Bob® 114

Rumble from the lights and look the real deal. Now with electronic cruise control, Fat Bob® is a formidable statement of modern engineering. Then there's the ride – the Softail® chassis delivers responsive handling that can be explored to the max thanks to the responsive, Milwaukee-Eight® 114 engine.

## Low Rider® ST 117

A whole new way to tour. The 80s inspired fairing and Milwaukee-Eight® 117 engine will take you wherever you want to go. Quickly. Easily. And with a smile on your face.

## Fat Boy® 114

Ride an icon. Tame the tarmac and make a proper entrance on this unmistakable machine. Fat tyres on fat Lakester disc wheels are part of the reasons for this Softail® cruiser's name. The fat torque output from the Milwaukee-Eight® 114 engine seals the deal.

## NEW Breakout® 117

The new Breakout® takes the performance custom cruiser genre to another level – again! Never one to be shy and retiring, the new Breakout proves that bigger is better with the highly rated Milwaukee-Eight® 117 engine at the heart of this torque-pumping Softail®.

### THE NEW BREAKOUT® MODEL BOASTS:

- High-Performance 1,923 cc displacement engine combined with precision oil/air cooling, creates the pinnacle of torque and power, promoting instant bragging rights on the street.
- Tuned Heavy Breather intake with forward-facing exposed filter element and 2-into-2 offset shotgun exhaust produce smooth, yet exciting mid-range torque, and gives the Breakout® added hot rod presence, while producing a stirring tone.
- Restyled seat shaped to accommodate the 18.9 litre fuel tank, which extends riding range.
- New handlebar riser and polished stainless steel handlebar is 19 mm (¾-inch) taller than previous model for improved rider reach to controls.
- Electronically-managed cruise control helps to rack up the miles with reduced rider effort, while Traction Control System (TCS) prevents the rear wheel from excessive spinning under acceleration in a straight line for improved rider confidence.
- Keyless ignition and security system.

# Heritage Classic 114

All-American good looks. Cruise with class on this timeless classic that hides a full suite of modern technology. The adjustable rear monoshock suspension is cleverly hidden from view to give that old school 'hardtail' stance. While the all-LED, low beam, high beam and signature position lamps underline modern function with retro styling.

## Cruiser pricing

Softail® Standard	Vivid Black	£15,995
Street Bob® 114	Vivid Black	£16,695

# Confidence. Convenience. Control.

## Traction Control System

Ideal for controlling the bike's performance without detracting from your riding pleasure. Available for the new Breakout®, Low Rider® S and Low Rider® ST models, Traction Control System (TCS) is a rider safety aid designed to prevent the rear wheel from excessive spinning under acceleration.

TCS can improve rider confidence in wet weather, when riding on an unpaved road or when there is a sudden unanticipated change in the surface.

The straight-line traction control system does not have the cornering enhanced feature as offered with Cornering Rider Safety Enhancements technology for Grand American Touring models.

## Cruise Control

Cruise control is a convenience feature for long-distance rides – two subjects that Harley-Davidson knows more about than most. Activated by using hand control switchgear, cruise control will hold the motorcycle at a steady pre-set speed and allows the rider to re-position their throttle hand/wrist for comfort.

Electronic Cruise Control will be a new standard feature on Fat Boy®, Fat Bob®, Breakout®, Low Rider® S and mirrors Low Rider® ST, Heritage Classic and Sport Glide® models.

# Adventure Touring

## *Blaze a trail*

Harley-Davidson® entered a whole new world of motorcycling with the launch of the Pan America™ 1250 in 2021. Packed with the latest technology and powered by the new Revolution® Max engine, the Pan America can truly do it all.

On road or off road, the only limit to where this pioneering motorcycle can take you is your own imagination...

**CLICK TO LEARN MORE** 

# Pan America™ 1250

The bike that changed everything. Pan America™ 1250 is an adventure bike that can be taken to the limit and beyond in search of new horizons and new adventures. Backed up with a catalogue of premium riding and styling accessories, from clothing to lighting aids, the limits to riding freedom can be stretched far and wide.

# Pan America™ 1250 S

Reach new heights. The optional, factory installed, award-winning Adaptive Ride Height system makes adventure touring more accessible than ever. Pan America™ 1250 Special is the ultimate, ready to roll adventure motorcycle. Premium components, as standard, include semi-active front and rear suspension, Daymaker® Signature Adaptive headlight, heated handlebar grips, and more.

# Equipped for adventure

Owning and riding a Pan America™ is just the start of your next adventure. Make sure you're equipped with Harley-Davidson® Genuine Parts & Accessories and riding gear before you start exploring. Night or day. Hot or cold. Smooth roads or off-road mountain tracks. You'll find everything you need at your local H-D® dealership.

Daymaker® LED Forward Auxiliary Lights. See and be seen with clarity.

Boots, trousers, jackets and much more riding gear focuses on riding comfort and protection.

From Adventure Duffel Bag to Aluminium Side Cases and Top Case, all your luggage-carrying needs are covered.

Harley-Davidson® Adventure riding gear is available from all Authorized H-D® dealerships.

Go far. Get dirty. A wide range of Harley-Davidson® cleaning and maintenance products are available.

Harley-Davidson® Genuine Parts & Accessories: designed to help you and your Pan America™ 1250 reach new grounds in style.

## From Rally to Road

*How off-road  
credentials improve  
on-road performance.*

**There's no better testing ground than the one  
provided by Mother Nature herself.**

Last year the Pan America™ 1250 was tested to its limit with fully-stock bikes entered into some of the toughest and most prestigious races in European adventure racing. And – spoiler alert – it flourished.

Dakar racer Joan Pedrero hustled his Pan America™ to a finish in the Elite category of the 1000 Dunes Raid. The punishing race across the Moroccan desert and Atlas Mountains, saw this adventure machine experience extremes from white-hot heat to snow and ice.

Vlogger Vanessa Ruck had a year-long adventure, taking part in racing in Wales just days after collecting her Pan America™, and riding to Europe's biggest H.O.G.® rally in Portoroz through the Dolomites and Slovenian Alps.

And experienced adventurer, Charley Boorman, took a Pan America™ across the UK, from the Isle of Man TT course to Snowdonia and the Yorkshire Dales, during the stunning Adventure Country Tracks ride.

*No modifications. No limits. No excuses.*

# Adventure awaits

The perfect location to push the Pan America™ 1250 to its limits. Are you up for it? With tuition from Dakar legend Mick Extance and 1,500 acres of pristine Welsh woodland to take on you'll soon find your off-road legs! With all equipment and lunch included it's the ultimate learning experience on two wheels. All weathers, all terrain, all skill levels. All Harley-Davidson®.

# Sport

## *United we ride*

**Thrilling performance. Eye-catching styling.**

Whether you turn to the Nightster® 975 or opt for the all-out 1250 power of the Sportster® S, the sport range will spin you to the horizon before you know it.

The Nightster®'s low weight makes it super flickable through the corners, while the grunt from the Revolution® Max powerplants of the range give you a new way to experience the thrill of a Harley-Davidson®.

Get out of gridlock and chase your dreams.

**CLICK TO LEARN MORE** 

## Nightster® – the ride continues

The Nightster® lives for the urban sprawl. Light on its wheels, this agile machine leaves an impression in the city as well as open, twisting roads. For 2023, we've pared back the Nightster to enable riders to get a better feel for their ride, up the heart rate and open the door to personal customisation.

Nightster comes without a speed screen in 2023 to raise the "as one" sensation of rider and environment when making headway along the twist and turns, or, even better, city congestion.

Additional detail changes see the Rocker medallions removed from the Revolution® Max 975T engine. A Bar & Shield medallion replaces the previous airbox cover graphic, and a new, styled seat cover adds to the aesthetics.

## NEW Nightster® Special

Harley-Davidson® introduces a new middle-weight contender that combines classic Sportster® silhouette with the sophisticated performance of the Revolution® Max 975T engine. Adding to the already successful mix of style, convenience and technology found in Nightster®, upgrades and new features on the new Nightster® Special provide an unrivalled motorcycle experience for a new generation of Sportster® riders.

### THE NEW NIGHTSTER® SPECIAL MODEL BOASTS:

- Passenger pillion seat pad and foot pegs enable two-up adventures.
- New cast aluminium wheels with Tyre Pressure Monitoring System (TPMS).
- Handlebar positioning puts the rider in a commanding position on the motorcycle.
- TFT screen displays all instrumentation and infotainment functions generated by the rider's Bluetooth-equipped mobile device.
- Status information includes front and rear tyre air pressure, engine temperature, oil pressure, battery voltage and diagnostic codes.
- On-screen navigation supplied by the Harley-Davidson® App for iOS or Android.
- Cruise control as standard.
- USB charging port.
- AMF retro tank design.

# Sportster® S

Sportster® S 1250 delivers 121 HP performance in true Sportster® style – with a smile. Complementing engine performance is a lightweight chassis that features adjustable suspension. An electronics package of Rider Safety Enhancements ensures that smile remains in place wherever you ride.

## Sport pricing

# Trike

## *Triple treats...*

The advantages of three wheels with the performance and prestige of Harley-Davidson®. Whatever your age, experience level or situation, a Trike could hold the key to getting out on the open road.

[CLICK TO LEARN MORE](#)

## Tri Glide® Ultra

Go long haul. Go all in with the Ultra experience. Alternative Harley® Touring with the added confidence of three wheels. Like its two-wheel counterparts, the Tri Glide® Ultra is designed from the ground up with comfort, handling and accessible performance in mind. An electronic reverse gear is another exacting detail that sets Harley-Davidson® apart.

## Freewheeler®

Stripped down style and hot-rod attitude reaches a new level. Freewheeler® has undergone a blacked-out restyle that sees the front end, headlamp nacelle, tank console, hand and foot controls, powertrain and exhaust all finished in black. New 18-inch (457 mm) Gloss Black rear wheels complete the attitude-look.

## Trike pricing

## Harley-Davidson® Authorized Service

Nobody shares the passion for your bike, like our Authorized Service Dealers. Each technician completes hundreds of hours of specialist training to ensure that your machine is always in safe hands with them.

### Remember, only H-D® Authorized Service Dealers provide:

- H-D® Service Master Technicians that have completed over 400 hours of instructor led training at the Harley-Davidson® University
- real-time information from H-D® engineering on the latest technical updates to our motorcycles
- access to specialist tools that are not available to non-H-D® workshops
- the factory-backed two-year warranty coverage administered by our dealer network
- a vast inventory of Genuine H-D® Parts & Accessories

**SPEAK TO YOUR DEALER  
FOR MORE INFORMATION.**

## 40 years of **H.O.G.®**

The Harley Owners Group® (H.O.G.®) is the heart of the Harley-Davidson® brand. A global riding community, like no other. And 2023 marks the group's 40th anniversary.

First formed as a riders' group in Milwaukee HQ back in 1983, H.O.G.® transformed the way Harley-Davidson® interacted with riders. It soon formed communities and bonds that have stood the test of time.

The original idea, to tap into a loyal customer base and send out a list of all dealerships in the US to encourage ride-outs and get togethers, worked better than expected!

By the early 1990s there were more than a quarter of a million members worldwide and H.O.G. broke the million barrier in 2006.

Today, there are more than 1,350 H.O.G. Chapters worldwide, connecting millions of Harley® lovers and like-minded enthusiasts. And regular events help to strengthen these connections.

The first international H.O.G. event was held in Europe in 1991, in Cheltenham, UK, and it wasn't long before 3,500 members descended on Alsace in France.

Each year, these incredible rallies and celebrations of motorcycling freedom continue to grow, bringing together Chapters from California to Copenhagen and Brisbane to Budapest. And this looks set to continue with the 40th anniversary celebrations promising to be epic.

**It's been a wild ride – here's to the next 40!**

**CLICK TO LEARN MORE**

## Come out and play

From the highlands of Scotland to the racing capital of the UK. Whether you're into rallies, off-roading or rocking out. A new rider or a lifelong lover. Whatever you're into, we're there. With our 120th anniversary making 2023 even more special we'll be at more events than ever – at home and overseas.

## H-D CERTIFIED™ APPROVED USED

### H-D Certified™ Approved Used

Choose a H-D® Certified™ Approved Used motorcycle and you can rest assured they have been rigorously checked and certified to earn the honour of being called a H-D Certified™ Approved machine. You can only purchase H-D Certified™ Approved machines from an authorised Harley® dealer.

#### Here's what you get when you buy a Certified™ Approved Used Harley:

- 110-point check of the technical condition of the motorcycle
- access to a detailed record from each inspection signed by the performing technician
- bike checked against the HPI register to identify any interest from a finance provider over the machine or any major accident damage
- mileage verification check
- 12-month comprehensive mechanical & electrical component guarantee
- 12-month roadside assistance.
